(Check One)

() **PLAN #1 HEALTH INSURANCE:** If you have health insurance that covers Chiropractic care, we will bill your insurance directly and expect to be reimbursed by your insurance company. Please be aware that payment from your insurance company cannot be guaranteed, and benefits are not determined until your claim is processed. Until we have the completed, necessary insurance information to verify chiropractic coverage, you will be required to pay for your care. Our staff will collect any applicable deductible, co-payments, patient responsibilities and any charge for non-covered services from you at the time of service. In the event the check should come to you, you are expected to bring the check to us. You are ultimately responsible for payments should your insurance company deny coverage.

() **PLAN #2 CASH AGREEMENT:** This option is for those that do not have insurance or choose not to use their insurance. This is a fee-for-service option and full payment is due at the time services are rendered. We accept cash, check, Visa, Mastercard and Discover. If you do not have coverage for chiropractic care you may want to consider joining ChiroHealth USA, a Discounted Medical Plan Organization. Inquiries can be made at the front desk.

() **PLAN #3 CHIROHEALTH USA:** We have joined ChiroHealth USA to enable us to keep visits affordable for those that are uninsured or underinsured for chiropractic care. This is a Discounted Medical Health Plan which allows us to offer a discounted fee for non-covered services. Annual membership is \$49 and covers you and your immediate family.

() **PLAN #4 "ON THE JOB" INJURY:** Worker's Compensation pays in full for chiropractic care. Upon being released from care, a three month time period is allowed for settlement of your claim. If settlement has not been reached within this time period, or you have suspended or terminated your care without your doctor's approval, payment for services is due immediately. I understand that I am being treated under the assumption that this injury is work-related. In the event that this case proves not to be work-related or denied, then I am fully aware of the charges incurred to me and I am also aware that I am fully responsible for the charges.

() **PLAN #5 AUTO-INJURY:** We will bill your insurance directly after verification of coverage. Most patients have either Medical Payments coverage or an attorney or both. If you hire an attorney to represent you, it is our policy to have your attorney sign a Doctor's Lien. This will guarantee direct payment to our office for any unpaid balance upon the settlement of your lawsuit. **Upon being released from care, a three month time period is allowed for settlement of your claim. If settlement has not been reached within this time period, or you have suspended or terminated your care without your doctor's approval, payment for services is due immediately.**

We hope that this has answered any questions that you might have about our financial arrangements. If at any time you have further questions about your care, please do not hesitate to ask us.

I have read and understand the above terms.

INFORMED CONSENT FOR CHIROPRACTIC AND ACUPUNCTURE TREATMENT

Back In Harmony Chiropractic and Wellness Center, LLC • 6115 Stirling Rd, Suite 205, Davie, FL 33314 • 954-604-5384

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as "informed consent" and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

Acupuncture involves the insertion of needles through the skin at specific points on the body in order to restore the flow of Qi (Life force/energy) and alleviate pain. Additional supportive procedures can include moxibustion, cupping and gua sha/scraping.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, sprains, bruising, numbness and tingling near the needling sites that may last a few days, dizziness, and fainting. With respect to strokes, there is a rare but serious condition known as a cervical arterial dissection that involves an abnormal change in the wall of an artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. This occurs in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately a percentage of these patients will experience a stroke. As chiropractic can involve manually and/or mechanically adjusting the cervical spine, it has been reported that chiropractic care may be a risk for developing this type of stroke. The association with stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments.

Unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk and burns and/or scarring are a potential risk of moxibustion.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.

ARBITRATION AGREEMENT

Article 1: Agreement to Arbitrate: It is understood that any dispute as to medical malpractice, that is as to whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by state and federal law, and not by a lawsuit or resort to court process, except as state and federal law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration. Further, the parties will not have the right to participate as a member of any class of claimants, and there shall be no authority for any dispute to be decided on a class action basis. An arbitration can only decide a dispute between the parties and may not consolidate or join the claims of other persons who have similar claims.

Article 2: All Claims Must be Arbitrated: It is also understood that any dispute that does not relate to medical malpractice, including disputes as to whether or not a dispute is subject to arbitration, as to whether this agreement is unconscionable, and any procedural disputes, will also be determined by submission to binding arbitration. It is the intention of the parties that this agreement bind all parties as to all claims, including claims arising out of or relating to treatment or services provided by the health care provider, including any heirs or past, present or future spouse(s) of the patient in relation to all claims, including loss of consortium. This agreement is also intended to bind any children of the patient whether born or unborn at the time of the occurrence giving rise to any claim. This agreement is intended to bind the patient and the health care provider and/or other licensed health care providers, preceptors, or interns who now or in the future treat the patient while employed by, working or associated with or serving as a back-up for the health care provider, including those working at the health care provider's clinic or office or any other clinic or office whether signatories to this form or not.

All claims for monetary damages exceeding the jurisdictional limit of the small claims court against the health care provider, and/or the health care provider's associates, association, corporation, partnership, employees, agents and estate, must be arbitrated including, without limitation, claims for loss of consortium, wrongful death, emotional distress, injunctive relief, or punitive damages. This agreement is intended to create an open book account unless and until revoked.

Article 3: Procedures and Applicable Law: A demand for arbitration must be communicated in writing to all parties. Each party shall select an arbitrator (party arbitrator) within thirty days, and a third arbitrator (neutral arbitrator) shall be selected by the arbitrators appointed by the parties within thirty days thereafter. The neutral arbitrator shall then be the sole arbitrator and shall decide the arbitration. Each party to the arbitration shall pay such party's pro rata share of the expenses and fees of the neutral arbitrator, together with other expenses of the arbitration incurred or approved by the neutral arbitrator, not including counsel fees, witness fees, or other expenses incurred by a party for such party's own benefit. Either party shall have the absolute right to bifurcate the issues of liability and damage upon written request to the neutral arbitrator.

The parties consent to the intervention and joinder in this arbitration of any person or entity that would otherwise be a proper additional party in a court action, and upon such intervention and joinder, any existing court action against such additional person or entity shall be stayed pending arbitration. The parties agree that provisions of state and federal law, where applicable, establishing the right to introduce evidence of any amount payable as a benefit to the patient to the maximum extent permitted by law, limiting the right to recover non-economic losses, and the right to have a judgment for future damages conformed to periodic payments, shall apply to disputes within this Arbitration Agreement. The parties further agree that the Commercial Arbitration Rules of the American Arbitration Association shall govern any arbitration conducted pursuant to this Arbitration Agreement.

Article 4: General Provision: All claims based upon the same incident, transaction, or related circumstances shall be arbitrated in one proceeding. A claim shall be waived and forever barred if (1) on the date notice thereof is received, the claim, if asserted in a civil action, would be barred by the applicable legal statute of limitations, or (2) the claimant fails to pursue the arbitration claim in accordance with the procedures prescribed herein with reasonable diligence.

Article 5: Revocation: This agreement may be revoked by written notice delivered to the health care provider within 30 days of signature and, if not revoked, will govern all professional services received by the patient and all other disputes between the parties.

Article 6: Retroactive Effect: If patient intends this agreement to cover services rendered before the date it is signed (for example, emergency treatment), patient should initial here. _____. Effective as of the date of first professional services.

If any provision of this Arbitration Agreement is held invalid or unenforceable, the remaining provisions shall remain in full force and shall not be affected by the invalidity of any other provision. I understand that I have the right to receive a copy of this Arbitration Agreement. By my signature below, I acknowledge that I have received a copy.

NOTICE: BY SIGNING THIS CONTRACT YOU ARE AGREEING TO HAVE ANY ISSUE OF MEDICAL MALPRACTICE DECIDED BY NEUTRAL ARBITRATION AND YOU ARE GIVING UP YOUR RIGHT TO A JURY OR COURT TRIAL. SEE ARTICLE 1 OF THIS CONTRACT.
